ISSUE: 4 November 2021 Appendix 1

EASL manufacture high technology electronic PCB assemblies to class leading turnaround times in order to reduce our customers' time to market whilst meeting all applicable requirements.

We commit to providing our customers with high quality products by assuring product performance, consistency and value. This commitment is rooted in our corporate values and is fundamental to our sustained growth and success. We strive for zero defect manufacturing and apply our continual improvement approach to deliver a competitive advantage to our customers.

We invest in our people, processes and capabilities in order to meet current and future requirements whilst maintaining the effectiveness of our quality management system.
